Original German Title: Verfahren zum Zubringen von Textilien zu bogenanlegenden Druckmaschinen.

METHOD FOR FEEDING FABRICS INTO SHEET-PROCESSING PRINTING MACHINES

CLAIMS

1. Method for feeding fabric into sheet-processing printing machines, such as relief or offset printing machines, characterized in that a paper sheet (4) is placed behind the fabric section (3) and both sheets are fed together into the printing machine.
2. Method as defined in Claim 1, characterized by the use of a fabric section (3) and a sheet of paper connected to said fabric section along one of the edges.
3. Method as defined in Claim 1, characterized by the use of a fabric section (3) and a sheet of paper (4), which are connected
